

Postcode	N1 5TU
Period	June 2023 - May 2024
Radius	1/2 Mile
Residential Population	30,056

## Showing National Crime Total Percentiles for N1 5TU

The National Crime Percentile allows you to quickly see how your selected postcode compares nationally against all other postcodes. So a postcode in the 100th percentile will have the most crime, postcodes in the 0th percentile have the least crime, and if a postcode is in the 50th percentile it will have the median number of crimes. The crime rate is defined as the number of crimes per 1000 residents.

Low  High

The Economic Policy Centre has made every effort to ensure accurate reporting of the public crime data which it has been doing since 2011. Perfection in crime data is however not possible. The location of crimes shown on the maps is approximated and indicative only. This is to protect the anonymity of individuals and ongoing legal proceedings. Crime is by its nature largely secretive and not all crimes are reported. The source government data occasionally does have errors and it's possible that our data is not 100% perfect - we work all the time to improve it and feed back these errors to the source. Please refer to our [Problems with the Data](#) page and [FAQ](#) page for more information. That being so, we are confident that UKCrimeStats is the most informative and accurate website there is for crime data. And the source data from the Home Office is the most open and transparent crime data in the world. If you have any further questions or queries, please don't hesitate to contact us on [crime@economicpolicycentre.com](mailto:crime@economicpolicycentre.com).

Refund policy: Although all postcode reports are thoroughly tested before release, unexpected errors may occur with internet interruptions as well. Such issues must be reported to us on [crime@economicpolicycentre.com](mailto:crime@economicpolicycentre.com) or by phone to +44(0)7900 245 306. We keep the right to rectify the error or defect within 72 hours. If any deficiency is approved and we fail to correct it within 72 hours from the date of the initial complaint email or any other notification provided by a customer, the refund will be issued to the customer in full.
